THURSDAY, MAY 6, 1897.

The great powers were impotent to prevent trouble, but they will now bend more efficient efforts toward seeing that republicanism does not spread.

A LARGE increase in tobacco acreage over that of last year is predicted in Pennsylvania. The war in Cuba is still bearing fruit in the United States.

AMERICAN coal mines are only imperfectly worked as yet. In Derbyshire county, England, there is a subterranean road seven miles long, which connects two mines. In the coal districts of Britain the entire country is undermined.

If the woe begone expression on the face of the young lady, supposed to represent the city of Peoria, in the Transcript cartoons, is any indication of the city's condition, she ought to take something at once for "that tired feeling." Since the late election they ought to have an abundance of "Warner's safe cure."

ONCE, while Mr. Webster was addressing the senate, the senate clock commenced striking, but instead of striking twice at 2 p. m., continued to strike without cessation more than forty times. All eyes were turned to the clock, and Mr. Webster remained silent until the clock had struck about twenty, when he thus appealed to the chair: "Mr. President, the clock is out of order; I have the floor!"

The late Senator Voorhees was not dissipated—but a story is told of him that he was once walking to the capitol building at Washington with a friend. As they were passing about the last saloon before reaching the building, the friend said: "Senator, let's go in here and take a drink." Voorhees turned on him with a look half jocular and half of disgust and said: "No, sir, what is one drink to me?"

AN amusing conversation was held through the telephone a few days since, between a correspondent of the New York World, and Rev. Dr. Newman Smyth, of New Haven. The reporter wanted a 50 word interview on "Hell" for the Sunday edition of his paper. He wanted it bright and terse and he got it. "Hell, in my opinion," said Dr. Smyth, "is the place where the Sunday edition of that paper should be published and circulated."

The True Remedy.

W. M. Repine, editor of the Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have a certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and beside is guaranteed. It never fails to satisfy. Trial bottles free at Hartz & Ullmeyer's drug store.

WOMAN'S LONG HOURS.

SHE TOILS AFTER MAN'S DAYS' WORK IS DONE.

What She Has to Contend With—Work That Sooner or Later Breaks Down Her Delicate Organism.

The great majority of women "work to live" and "live to work," and the hands of the clock approach the hour of six, those employed in stores, offices, mills and factories, hail closing time with joy. They have won their day's bread, but some duties are yet to be performed, and many personal matters to be attended to. They have mending to do, and dresses or bonnets to make, and long into the night they toil, for they must look neat, and they have no time during the day to attend to personal matters.

Women, therefore, notwithstanding their delicate organism, work longer and more closely than men. They do not promptly heed such signs as headache, backache, blues, pains in the groins, nervousness, loss of sleep and appetite, whites, irregular or painful monthly periods, cold and swollen feet, etc., all symptoms of womb trouble, which, if not quickly checked, will launch them in a sea of misery.

There is but one absolute remedy for all those ills. Any woman who has to earn her own living will find it profitable to keep her system fortified with this tried and true woman's friend, Lydia E. Pinkham's Vegetable Compound, which removes the cause and effects a lasting cure.

We are glad to produce such letters as the following from Miss M. G. McNamee, 114 Catherine St., Utica, N.Y.:

"For months I had been afflicted with that tired feeling, no ambition, no appetite, and a heavy bearing-down feeling of the uterus. I began to use Lydia E. Pinkham's Vegetable Compound. Soon those bad feelings passed away; I began to have more ambition, my appetite improved and I gained rapidly in every way, and now I am entirely well. I advise all my friends to use the Compound, it is woman's truest friend."
